SUBJECT : Assistance to the Intelligence Community Staff

Lew:

I would like to supply the following information to assist you and [redacted] in organizing the IC Staff.

Recognizing the present excess exercise and the budgetary pressures, I would appreciate hearing from you as soon as possible in terms of any potential changes to those budget items, whether they be in terms of needing additional slots, and therefor providing relief to you, or whether they permit you to release slots to the remainder of the Agency which could perhaps ease some of our pain.
